Dear Parents and Carers,

As we approach the end of term and enjoy the sunny weather, the children have been busy exploring our summer theme this week. We've had so much fun with a variety of activities, helping the children to develop their counting, creativity, and communication skills while enjoying lots of sensory play. The children counted out sprinkles for ice creams and seeds for watermelons, sorted and weighed beautiful shells, and added pegs to numbered suns — a great way to strengthen those fine motor skills. Using watercolours, the children painted some lovely sunsets, and then let their imaginations shine as they created their own unique summer pictures. Our smoothie and ice cream shop role play areas have been very popular, sparking lots of conversation, collaboration, and imaginative play. In the messy and sensory areas, the children enjoyed: a summer-themed tuff tray; making lemonade; creating ice cream with shaving foam and discovering frozen sea animals. Outside, the water play continued to be a big hit! The children worked together to construct new ways to pour water down the half-pipes into trays and buckets, experimenting with shells and buckets to keep our summer theme going.

It's been a joyful, sunny week full of creativity, exploration, and teamwork.
