

The Children's Workshop

Looked After Children

At the Children's Workshop we are committed to providing a welcoming and inclusive quality environment for all children and families.

Definition and legal framework

The description 'looked after' is generally used to describe a child who is looked after by the local authority. This includes children who are subject to a care order or temporarily classed as looked after on a planned basis for short breaks or respite care. Most looked after children will be cared for by foster carers with a small minority in children's homes, looked after by family members or even placed back within the family home.

The term 'looked after child' denotes a child's current legal status. The pre-school never uses this term to categorise a child as standing out from others or refers to a child using acronyms such as LAC.

The legal framework for this policy is underpinned by or supported through:

- Childcare Act 2006
- Children Act (1989 and 2004)
- Adoption and Children Act (2002)
- Children and Young Persons Act (2008)
- Children and Families Act (2014)
- Children and Social Work Act (2017).

Our policy

Our pre-school treats each child as an individual. We recognise that for young children to get the most out of educational opportunities they need to be settled appropriately with their carer. We will discuss with the child's carer, and social worker where applicable, the length of time the child has been with the carer before they start pre-school to establish how secure the child feels and whether they are ready to be able to cope with further separation, a new environment and new expectations made upon them.

We are aware that there are a number of reasons why a child may go into care and these reasons may or may not include traumatic experiences or abuse. All our practitioners are committed to doing all they can to support all children to achieve their full potential. The pre-school staff team are all trained to understand our safeguarding policy and procedures. Additional training to support children's individual needs will be planned for where appropriate. Practitioners are supported by management at all times and we have an open door policy if they need to discuss any sensitive issues regarding the child.

Where applicable, we contribute to any assessment about the child, such as those carried out under local authorities' assessment frameworks or Early Help Assessment (EHA) and to any multi-agency meetings, case conferences or strategy meetings in relation to the child's learning and development. The designated person for looked after children and/or the child's key person will attend meetings as appropriate.

The **designated person** for 'looked after children' is **Sarah Maynard**

Each child is allocated a key person. The key person will support the child initially with transition and settling in and then continue to support and build up a relationship with the child, carers and any other agencies involved. Regular contact will be maintained with the carers throughout the child's time at the pre-school and with the social worker or other professionals (where applicable).

The key person will carry out regular ongoing practice such as observations to build up a picture of the child's interests, and plan activities accordingly to support the child's stage of learning and development and interests. This information will be shared with carers and other professionals as appropriate as well as any concerns surrounding their developmental stages.

Where necessary we will develop a care plan with carers and professionals. This will include:

- The child's emotional needs and how they are to be met
- How any emotional issues and problems that affect behaviour are to be managed
- The child's sense of self, culture, language/s and identity - how this is to be supported
- The child's need for sociability and friendship
- The child's interests and abilities and possible learning journey pathway
- How any special needs will be supported.

In addition, the care plan may also consider:

- How information will be shared with the foster carer and local authority (as the 'corporate parent') as well as what information is shared with any other organisation or professionals and how it will be recorded and stored
- What contact the child has with his/her birth parent(s) and what arrangements will be in place for supervised contact. If this is to be in the setting, when, where and what form the contact will take will be discussed and agreed
- Who may collect the child from pre-school and who may receive information about the child
- What written reporting is required
- Wherever possible, and where the plan is for the child to return to their home, the birth parent(s) should be involved in planning
- With the social worker's agreement, and as part of the plan, whether the birth parent(s) should be involved in the setting's activities that include parents, such as concerts, fun days etc. alongside the foster carer.

Where applicable, we will complete a Personal Education Plan (PEP) for any children aged three to five in partnership with the social worker and/or care manager and carers. We will also attend all appropriate meetings and contribute to reviews.

The key person and designated 'looked after' person Sarah Maynard will work together to ensure any onward transition to school or another nursery/pre-school is handled sensitively to ensure that this is as smooth as possible and all necessary information is shared. The child's individual file, including observations, photographs and pieces of art work and mark making will be passed on to the carer at this stage.

Mockingbird Family Model

“Surrey County Council has implemented the Mockingbird Family Model for fostering. The Mockingbird model is an innovative method aimed at replicating supportive family networks and relationships. It provides sleepovers and short breaks, peer support, regular joint planning and training, and social activities.

The model improves the stability of fostering placements and strengthens the relationships between carers, children and young people, fostering services and birth families.

Our aim in Surrey is to build strong relationships between foster homes, empowering families to support one another so that they can overcome problems before they escalate or lead to placement breakdown.

At the centre of each network of six to 10 foster families is a hub home, which offers planned and emergency respite, advice, training and support, to the other families within the extended family network.

The Mockingbird programme improves the resilience of each family within the network, meaning issues can be dealt with before they escalate, reducing social workers' caseloads so they can focus on helping young people achieve their potential.”

Private Fostering

Private fostering is an arrangement made between the parent and the private foster carer, who then becomes responsible for caring for the child in such a way as to safeguard and promote their welfare.

A privately fostered child is a child under the age of 16 (18 if a disabled child) who is cared for and provided with accommodation etc. for more than 28 days and where the care is intended to continue by someone other than:

- The parents
- A person who is not a parent but has parental responsibility
- A close relative
- The Local Authority.

It is a statutory duty for us to inform the local authority where we are made aware of a child who may be subject to private fostering arrangements. We will do this by contacting the Surrey Children's Single Point of Access (SPA).
